The Swiss Narcolepsy Network (SNaNe)
and the Swiss Narcolepsy Society (SNaG)

Are happy to invite you to the

5TH SWISS NARCOLEPSY DAY

16/01/2020

BERN UNIVERSITY HOSPITAL, INSELSPITAL

Dear Colleagues

Asleep during the day! A growing number of people suffer severely from daytime sleepiness. In some cases this is caused by a rare and fascinating disorder, which is still underdiagnosed – narcolepsy.

With great pleasure, we invite you to the **5TH Swiss Narcolepsy Day** at the Inselspital, University Hospital Bern.

Together with the newly founded Swiss Narcolepsy Network (www.snane.ch) our goal is to find innovative new strategies that support the improvement of the patient's medical care. Narcolepsy is not only rare but also not very well understood yet. A fact, which makes these efforts even more valuable.

We are looking very much forward to hosting the 2020 Swiss Narcolepsy Day in Bern. In addition to the scientific lectures during the day, we will focus on introducing and deepen the topic for a wider audience in the evening.

We are looking forward to seeing you

PROF. DR. C. BASSETTI
Chairman and Head
Department of Neurology
University Hospital, Bern

PROF. DR. J. MATHIS
Head Physician
Sleep-Wake-Epilepsy-Center
University Hospital, Bern

THURSDAY, 16TH JANUARY 2020
