Dear Colleague,

Please join us for the 9th SSHO 2018 taking place on Thursday, 19th April at the Hôpitaux Universitaires de Genève (HUG) in Geneva.

This year we are hosting a panel of internationally and nationally renowned experts who will give state-of-the-art scientific lectures and discuss practice-oriented clinical cases in the fields of Mantle Cell Lymphoma (MCL); Multiple Myeloma (MM); Chronic Lymphocytic Leukemia (CLL); Rare Indolent Lymphoma; and Chronic Myeloid Leukaemia (CML).

There will be numerous opportunities for you to interact with the panel directly in the main center at the HUG or at the various satellite centers via videoconference, allowing you to gain a broader understanding of the topics under discussion.

We look forward to seeing you at the 9th SSHO 2018 in Geneva or at one of our satellite centers.
