PROGRAM

7./8. December 2018 in Bern

Universitätsklinik für Hals-, Nasen- und Ohrenkrankheiten

**December Meeting on «Smell and Taste» supported by
the Working Group on Olfaction and Gustation of the
German ENT society**

Friday, 7th of December 2018

13:30 Registration and Coffee

14:00 Welcome – Prof. Marco Caversaccio (Bern), Dr. Simona Negoias (Bern)

14:00 Chemosensory testing, taste - Chair: Antje Welge-Lüssen (Basel)

14:00 Anna Oleszkiewicz (Dresden) *Normative data for the Sniffin Sticks in more than 9000 healthy subjects*

14:15 Gerold Besser (Vienna) *Short version of a retronasal olfactory test*

14:30 Tanja Drews (Dresden) *Self-administration of the Sniffin Sticks odor identification test*

14:45 Lisa Grzeschuchna (Dresden) *Electrophysiological correlates of gustatory activation in patients with taste disturbance*

15:00 Plenary session – Chair: Simona Negoias (Bern)

15:00 Önder Göktas (Berlin) *Drug-induced taste loss: the hitlist*

15:15 Michael Damm (Cologne) *Diagnostics and therapy of olfactory dysfunction in German-speaking countries*

15:30 Thomas Hummel (Dresden) *Questionnaire for parosmia / smoking / general*

15:45 Julien Hsieh (Geneva) *Development of an ontology-based smell phenotyping system*

16:00 Coffee break

16:30 Lecture – Chair: Anna Oleszkiewicz

Daria Knoch (Bern): *Body odors*

17:00 Mixed bag – Chair: Gerold Besser (Vienna)

17:00 Raffaella Fürer (Basel) *Central-nervous processing of salty taste induced by NaCl or KCl*

17:15 Antje Hähner (Dresden) *Mutation in Nav1.7 causes high olfactory sensitivity*

17:30 Agnieszka Sabiniewicz (Wrocław) *Odor memory is related to the quality of early memories in older adults*

17:45 Social program

Saturday, 8th of December 2018

8:30 Coffee

09:00 Congenital anosmia, head trauma, trigeminal – Chair: Julien Hsieh (Geneva)

09:00 Akshita Joshi (Dresden) *Brain activation to chemosensory stimulation in patients with congenital anosmia*

09:15 Basile Landis (Geneva) *Gustatory and olfactory function after temporal bone fracture*

09:30 Kyri Lindner (Dresden) *Cognitive function in patients with trauma-related olfactory loss*

09:45 Sophia Poletti (Tübingen) *Distribution of trigeminal receptors in the nasal respiratory epithelium*

10:00 Gerg Lober (Dresden) *Trigeminal activation in patients with allergic rhinitis and chronic rhinosinusitis*

10:15 Carla Masala (Dresden) *Correlation between nasal anatomy and olfactory function*

10:30 Plenary session – Chair: Karl-Bernd Hüttenbrink (Cologne)

Thomas Hummel (Dresden) *Goals of the working group*

11:15 Coffee break

11:45 Lecture – Chair: Basile Landis (Geneva)

Abel-Jan Tasman (St. Gallen) *Nose and Psyche*

12:15 Mixed bag – Chair: Tanja Drews (Dresden)

12:15 Axel Wolf (Graz) *Olfactory cleft proteome does not reflect olfactory performance in patients with olfactory loss*

12:30 Simona Negoias (Bern) *Chemosensory function and environmental sensitivity in patients with tinnitus*

12:45 Yunpeng Zang (Dresden) *Influence of olfactory dysfunction on food sense of perception*

13:00 Daniel Liu (Vienna) *Assessment of retronasal olfactory function in patients with smell loss*

13:15 Corinne Hasler (Basel) *Olfactory function during the course of idiopathic Parkinson's disease*

13:30 Final remarks – Simona Negoias (Bern)
